VOL. 44, NO. 11 – Nov. 22, 2021

Discontinuation of In-House Cystic Fibrosis Carrier Detection Test (CFDNAD) and other changes.

Timothy S. Uphoff, Ph.D

Beginning November 23, 2021, Marshfield Labs will no longer perform the Cystic Fibrosis carrier Detection Test at Marshfield Labs and will refer the test out.

Cystic Fibrosis Testing Changes and Test Code Retirements

New Test Code for CF..... 1

How to order this test 2

Microbiology test changes 2

Cystic Fibrosis Testing Changes

Marshfield Labs will no longer perform the Cystic Fibrosis carrier Detection Test in-house. Testing will instead be sent to our reference laboratory at Mayo Medical Labs using the test code **CFPSO** for the Cystic Fibrosis Mutation Analysis test. Samples submitted for testing must include a completed patient information sheet available [here](#).

New Test Code CFPSO: Cystic Fibrosis Mutation Analysis, 106-Mutation Panel, Varies (CFP)
CPT: 81220

Reflexes include:

CULFB: Fibroblast Culture for Genetic Test
CPTs – 88233, 88240

CULAF: Amniotic Fluid Culture/Genetic Test
CPTs – 88235, 88240

MATCC: Maternal Cell Contamination, Blood reflexes to:

CULFB

CULAF

_STR1 (CPT: 81265)

_STR2 (CPT: 81266)

How to order this test:

Test name: Cystic Fibrosis Mutation Analysis

Test Code: CFPSO

Specimen: Submit only 1 of the following specimens:

2.5 mL Whole blood, Lavender top (EDTA) or yellow top (ACD) (minimum volume= 0.5mL)

Due to the complexity of prenatal testing, consultation with the laboratory is required for all prenatal testing.

20 mL Amniotic fluid, amniotic fluid container

20 mg Chorionic villi, 15 mL tube containing 15 mL of transport media

Patient Information Form: [required form to send with specimen](#)

Storage: Refrigerated up to 96 hours.

Test availability: Performed Daily

Qualitative interpretation: This 106-variant panel includes the 23 variants recommended by the American College of Medical Genetics and Genomics (ACMG)

Microbiology Test Changes

Effective December 11, 2021 the following test codes will be retired and replaced with tests that are sent to Mayo Medical Labs:

Culture, Mycobacteria, Blood

Retiring Marshfield Test code: AFBLD

Mayo replacement: Mycobacterial Culture, Blood (Mayo test code: CTBBL)

Order as **MISC**

CPT: 87116

Culture, Fungus, Blood

Retiring Marshfield Test code: FBLD

Mayo replacement: Fungal Culture, Blood (Mayo test code: FBL)

Order as **MISC**

CPTs: 87015, 87013

Any questions regarding these changes can be directed to:
